EDUCATION

Academic City University (*currently enrolled*)

B.Sc. Robotics Engineering

Accra, Ghana

Since January 2024

Institution Raggi Anne Marie (IRMA)

School Diploma (BAC)

Grand Bassam, Cote d'Ivoire

2018 – 2019

WORK EXPERIENCE

3D Designer, Independent contractor

Since January 2025, Accra

Intern Robotics Engineer, AAENICS

June 2026 – October 2026, Accra

- During that internship I had the opportunity to get familiar and experience all kind of modules such as ESP32, many motor driver variations, several motor types (from 5v to above), and also different kind of 3D printers and a Laser cutters. With the team, we worked on a Rover prototype and I got to see I had the privilege to see and contribute to my design come to life/reality by working on the electronics.

Engineer Student Intern, Academic City University

June 2026 – August 2026, Accra

- The expected outcome of this internship was to come up/build a full functional fonio dehasting machine with high efficiency. The Team there was as dynamic and I had the honor to design the machine prototypes and the machine itself, as well as working on the mechanical and electrical aspects.

Junior UX/UI Designer, WeUp

September 2021 – May 2023, Online

- I was designated to create the vector images of Characters, Accessories and Environments using Adobe Illustrator. Then I was in charge of implementing and updating the first flows (prototype) of the user interface of the app using Figma and in the end achieved a flow beyond the vision.

Computer Maintenance Technician, Afrikonex

May 2022– September 2022, Abidjan, Cote d'Ivoire

- Troubleshooting OS and Software failures
- Installation of OS and Software

SKILLS & CERTIFICATIONS

Technical Skills: 3D Designing (Solidworks, Blender 3D), Programming (Python, Arduino, C Programming, MatLab), TinkerCAD, Graphic Designing (Adobe Illustrator, Photoshop, Audition, Microsoft Word, Excel, PowerPoint)

Soft Skills: Fast Learning, Integrity, Transparency, Creativity, Patience, Persistence, Self-Control, Deduction and Prediction/Estimation Skill, Quick and Critical Thinking, Problem Solving, Strategy Maker, Big Picture and Long-Term Goal Oriented, Pro-Active, Outside-Box-Thinker, Open-Minded

Certifications: Python Certificate(January 2022),Robotics Certificate (February 2022, OpenLab, Accra), Cyber-Security Certificate (March 2022, OpenLab, Accra)

EXTRA-CURRICULARS

- Chess Club, Academic City University

Since January 2025, Accra, Ghana

- Competing against other members; evolving my strategy making, patience and overview skill

- National Society of Black Engineers, Academic City University

Since January 2025, Accra, Ghana

- Working to bring about change in the community

- Robotics Club, OpenLab

January 2022 – April 2022, Accra, Ghana

- We designed a smart house, nose-mask detector and other systems using Python alongside with Arduino. I was the programmer and all of us, members, worked on the electronics

- Debate Club, Crystal Language Institute

August 2020, Accra, Ghana

- I was a member and partook in their two-man-team debate competition of December 2020. We won the debate battle and we were honored by the Principal of the institute.

FLUENT LANGUAGES :

French (*Native*)

English (*2nd Language*)
